PAPERS PROCESSED

Date Started: October 8, 2003
Collection Title: **Education Collection**
Date Span: Varied

Inclusive Subjects:

These records are a collection of information on education in Miami. This collection was organized into several parts on one subject. We decided to group the collection into subgroups as part of a larger collection. This collection contains pictures, programs, certificates, awards, newspaper articles, correspondences, resumes, and other documents.

Brief description of processing procedure:

The records in this collection were located in the Black Archives ready reference room. After a preliminary survey was conducted, it was discovered that the records of the Education Collection were in no particular order. They were kept in several large binders and folders. To process the collection, the information was placed into categories, and then transferred into acid-free file folders. After being appropriately labeled, the folders were organized in alphabetical order and placed in an acid-free box. A content listing was made, and the files were inputted into the collections database. Collection appropriate labels were attached, and the boxes were stored in the collection room. This collection was processed at the file folder level and is now categorized multiple series.

Education Collection – Continued

***** Archivist Note:** These records were stored in the collections room, and since this is a community archives, it will be an ongoing collection. The collection includes several photographs and manuscripts of different educational issues associated with public schools in Dade County, and higher educational institutions as well. Since this is a community archives, the collection will continue to grow as more information is made available to the archives. Upon reviewing the collection, I made the decision to create one large topic and many subtopics. This collection's inclusive sub-series are: Pioneer Schools, PTA & DCPS Info, Desegregation & Integration, Colleges, Booker T. Washington, Florida Memorial College, and General. .

Number of Boxes: 7

Location: Collection Room
Ready Reference Section

Size: 2.5 linear ft & 2 cubic ft

Processing Description: File folder level

Date of Completion: 8/13/04
