Personalities Collection Finding Aid

This collection documents personalities that have made a considerable contribution to the history of black South Florida. Personalities range from prominent officials and celebrities to washer women and chauffeurs. It consists of primary and secondary source material, including audio cassettes, autobiographies, pictures, programs, obituaries, certificates, awards, newspaper articles, correspondence, resumes and videos. This is an active collection and is continually expanding. While the collection contains material on hundreds of individuals, material on specific individuals may be limited to a single item of information.

*** Archivist Note:
These records will be stored as the Personalities A Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. The collection is processed under a multiple series collection to accommodate the expansion of this collection if needed. The first processing stage of this collection is documented as series one, any further additions will be processed as the next available series number. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained a funeral program. I will place those programs I removed in our obituary collection until more

C Series

Number of Boxes:  2
Location:  Collection Room, Ready Reference Section
Size:  1 linear foot
Processing Description:  Itemized folder level
Completed by:  Whitney Ducas (Intern), Utavia Wright (Intern) & Timothy A. Barber (Assistant Archivist)
Date Started:  July 9, 2004
Date of Completion:  7/15/04
*** Archivist Note:
These records will be stored as the Personalities C Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. The collection is processed under a multiple series collection to accommodate the expansion of this collection if needed. The first processing stage of this collection is documented as series one, any further additions will be processed as the next available series number. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained a funeral program. I will place those programs I removed in our obituary collection until more information is made available to the archives. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities.

Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained an obituary. I will place those removed in our obituary collection until more information is made available to us. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities.

Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained an obituary. I will place the ones
removed in our obituary collection until more information is made available to us on them. Also, I decided to remove the information on the members of the Johnson Family to form a Johnson Family Collection which will be inclusive of Dr. S.H. Johnson, Judge John D. Johnson, Ida Ellen Johnson, and more, due to the large volume of information in the collection.

Size: .5 linear ft
Processing Description: Itemized folder level
Completed by: Timothy A. Barber
Date Started: May 2, 2007
Date of Completion: May 14, 2007

*** Archivist Note:
These records will be stored as the Personalities K Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. The collection is processed under a multiple series collection to accommodate the expansion of this collection if needed. The first processing stage of this collection is documented as series one, any further additions will be processed as the next available series number. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained a funeral program. I will place those programs I removed in our obituary collection until more information is made available to the archives. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities.

These records will be stored as the Personalities N Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained an obituary. I will place those removed in our obituary collection until more information is made available to us. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities.

These records will be stored as the Personalities O Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained an obituary. I will place those removed in our obituary collection until more information is made available to us. This collection also contained the works of Benny O’Berry, the first African American to graduate from the University of Miami. Since that was an extensive collection, I separated it from this collection. Included in this collection are the works of Joe Oglesby a prominent reporter from the Miami Herald. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities.

Number of Boxes: 2
Location: Collection Room, Ready Reference Section
Size: 1 linear foot
Processing Description: Item Level
Completed by: Tammy Jackson (Intern), & Timothy A. Barber (Archivist)
Date of Completion: 6/15/07
Date Started: June 7, 2007

*** Archivist Note:
These records will be stored as the Personalities R Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained an obituary. I will place those removed in our obituary collection until more information is made available to us. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities.

These records will be stored as the Personalities S Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained an obituary. I will place those removed in our obituary collection until more information is made available to us. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities.

***Archivist Note:***

These records will be stored as the Personalities V Collection, and since this is a community archives, it will be an ongoing collection. The collection already includes several prominent individuals in the community, and will continue to grow as more information is made available to the archives. Upon reviewing the collection, I made the decision to weed and remove several personalities that only contained an obituary. I will place those removed in our obituary collection until more information is made available to us. Researchers will be able to cross-reference this group of records with other material in the archives collection. Examples of other collections include: BellSouth Calendars, Obituary, Religion, Sites & Landmarks, Civil Rights (Civil Disturbance), and Neighborhoods & Communities.
